CAREER SUMMARY

Peter has over 14 years experience in learning and development as a facilitator, presenter and consultant. Prior to establishing his first company in 1991, Peter had a number of years in education culminating in an International Fellowship exchange to Canada in 1987. Upon return, Peter's transition to the corporate sector came via a senior management appointment to a large training services based company.

Right from the beginning Peter was clear that his strengths lie in facilitating organisational improvement through team and leadership development. As he believes learning is most effective when it involves active participation, Peter incorporates experiential learning activities into his indoor/outdoor programs. By combining interactive learning techniques with the TMS suite of instruments, Peter found the perfect vehicle to design and facilitate programs that are fun, engage people and deliver results.

Peter is the principal consultant and owner of two companies - Corporate Team Solutions, which offers team & leadership development and executive coaching and Corporate Outdoor Training which specialises in outdoor team building programs. Peter and his experienced team of facilitators customise program content and delivery style to match the needs of each client.

Peter has successfully worked with people at all levels spanning a broad cross section of industries and countries. They include Senior Management teams -DHL Worldwide Express (Singapore, Malaysia, Vietnam, Bangladesh, Nepal and Australia), Team Leaders & Work teams- BHP Billiton & Boral (Australia), Cross Cultural team building - Hewlett Packard (Vietnam, Singapore, Malaysia, Australia), and Leadership Development - Cargill Inc. (Asia Pacific, UK/Europe and USA.)
