HIGH ROPES COURSE

Ever wondered what it would be like to stand on a 30 cm wide platform 15 metres above the ground and leap head first into space? The element of height presents an opportunity to set and meet a personal challenge by stretching the “comfort zone”. Whilst it is very much a personal experience when up on the cables, support and encouragement from the rest of the team play a big part in helping others overcome a perceived barrier.

Trust and support play a big part in this experience!

If your team works in a demanding business environment where challenging the status-quo is critical for success, then the high & low ropes is for you!
